

I can't believe the nab would even try such an issue as petition 04-160, but I would be shocked if the fcc would allow it to go into effect. I have made a decision to pay a little money each week in order to get a better product which sounds much better than am/fm and don't believe I should be denied trffic and weather reports because I do. There could be times when weather or traffic report could save my life or at least help me in some way and I can't see why I shouldn't be allowed to receive them on my xm radio. Thank you for your time.
